## Federal Rule of Civil Procedure 45 (c), (d), and (e) (Effective 12/1/07)

**(c) Protecting a Person Subject to a Subpoena.**

**(1) Avoiding Undue Burden or Expense; Sanctions.** A party or attorney responsible for issuing and serving a subpoena must take reasonable steps to avoid imposing undue burden or expense on a person subject to the subpoena. The issuing court must enforce this duty and impose an appropriate sanction — which may include lost earnings and reasonable attorney's fees — on a party or attorney who fails to comply.

**(2) Command to Produce Materials or Permit Inspection.**

**(A) Appearance Not Required.** A person commanded to produce documents, electronically stored information, or tangible things, or to permit the inspection of premises, need not appear in person at the place of production or inspection unless also commanded to appear for a deposition, hearing, or trial.

**(B) Objections.** A person commanded to produce documents or tangible things or to permit inspection may serve on the party or attorney designated in the subpoena a written objection to inspecting, copying, testing or sampling any or all of the materials or to inspecting the premises — or to producing electronically stored information in the form or forms requested. The objection must be served before the earlier of the time specified for compliance or 14 days after the subpoena is served. If an objection is made, the following rules apply:

**(i)** At any time, on notice to the commanded person, the serving party may move the issuing court for an order compelling production or inspection.

**(ii)** These acts may be required only as directed in the order, and the order must protect a person who is neither a party nor a party's officer from significant expense resulting from compliance.

**(3) Quashing or Modifying a Subpoena.**

**(A) When Required.** On timely motion, the issuing court must quash or modify a subpoena that:

**(i)** fails to allow a reasonable time to comply;

**(ii)** requires a person who is neither a party nor a party's officer to travel more than 100 miles from where that person resides, is employed, or regularly transacts business in person — except that, subject to Rule 45(c)(3)(B)(iii), the person may be commanded to attend a trial by traveling from any such place within the state where the trial is held;

**(iii)** requires disclosure of privileged or other protected matter, if no exception or waiver applies; or

**(iv)** subjects a person to undue burden.

**(B) When Permitted.** To protect a person subject to or affected by a subpoena, the issuing court may, on motion, quash or modify the subpoena if it requires:

**(i)** disclosing a trade secret or other confidential research, development, or commercial information;

**(ii)** disclosing an unretained expert's opinion or information that does not describe specific occurrences in dispute and results from the expert's study that was not requested by a party; or

**(iii)** a person who is neither a party nor a party's officer to incur substantial expense to travel more than 100 miles to attend trial.

**(C) Specifying Conditions as an Alternative.** In the circumstances described in Rule 45(c)(3)(B), the court may, instead of quashing or modifying a subpoena, order appearance or production under specified conditions if the serving party:

**(i)** shows a substantial need for the testimony or material that cannot be otherwise met without undue hardship; and

**(ii)** ensures that the subpoenaed person will be reasonably compensated.

**(d) Duties in Responding to a Subpoena.**

**(1) Producing Documents or Electronically Stored Information.** These procedures apply to producing documents or electronically stored information:

**(A) Documents.** A person responding to a subpoena to produce documents must produce them as they are kept in the ordinary course of business or must organize and label them to correspond to the categories in the demand.

**(B) Form for Producing Electronically Stored Information Not Specified.** If a subpoena does not specify a form for producing electronically stored information, the person responding must produce it in a form or forms in which it is ordinarily maintained or in a reasonably usable form or forms.

**(C) Electronically Stored Information Produced in Only One Form.** The person responding need not produce the same electronically stored information in more than one form.

**(D) Inaccessible Electronically Stored Information.** The person responding need not provide discovery of electronically stored information from sources that the person identifies as not reasonably accessible because of undue burden or cost. On motion to compel discovery or for a protective order, the person responding must show that the information is not reasonably accessible because of undue burden or cost. If that showing is made, the court may nonetheless order discovery from such sources if the requesting party shows good cause, considering the limitations of Rule 26(b)(2)(C). The court may specify conditions for the discovery.

**(2) Claiming Privilege or Protection.**

**(A) Information Withheld.** A person withholding subpoenaed information under a claim that it is privileged or subject to protection as trial-preparation material must:

**(i)** expressly make the claim; and

**(ii)** describe the nature of the withheld documents, communications, or tangible things in a manner that, without revealing information itself privileged or protected, will enable the parties to assess the claim.

**(B) Information Produced.** If information produced in response to a subpoena is subject to a claim of privilege or of protection as trial-preparation material, the person making the claim may notify any party that received the information of the claim and the basis for it. After being notified, a party must promptly return, sequester, or destroy the specified information and any copies it has; must not use or disclose the information until the claim is resolved; must take reasonable steps to retrieve the information if the party disclosed it before being notified; and may promptly present the information to the court under seal for a determination of the claim. The person who produced the information must preserve the information until the claim is resolved.

**(e) Contempt.** The issuing court may hold in contempt a person who, having been served, fails without adequate excuse to obey the subpoena. A nonparty's failure to obey must be excused if the subpoena purports to require the nonparty to attend or produce at a place outside the limits of Rule 45(c)(3)(A)(ii).

### **INSTRUCTIONS**

In addition to the requirements set forth in the Federal Rules of Civil Procedure, which Plaintiffs incorporate here, the following instructions apply to each of the discovery requests set forth below, and are deemed to be incorporated in each of said requests:

1. Pursuant to Rule 26(e) of the Federal Rules of Civil Procedure, these document requests shall be deemed to be continuing in nature so that if You or any person acting on your behalf subsequently discover or obtain possession, custody or control of any document previously requested or required to be produced, you shall promptly make such document

available. Each supplemental response shall be served on Plaintiffs no later than thirty (30) days after the discovery of the further information, and in no event shall any supplemental response be served later than 30 days before the first day of trial, absent leave of court.

2. These requests include all data and information stored electronically or magnetically. To the extent responsive documents or data are maintained in an electronic format, including but not limited to on a disk, tape, hard drive, flash drive, steady state drive, or other magnetic or machine-readable format, please produce the electronic version along with manuals and all other documents sufficient to operate, display, read and interpret the programs, documents or data.

3. You should construe these requests as follows:

- (a) the singular includes the plural and the plural includes the singular;
- (b) the masculine, feminine, or neuter pronoun includes the other genders;

- (d) the words "any" and "all" shall include each and every; and
- (e) the present tense of a verb includes its past tense and vice versa.

4. These document requests require that all documents created, generated or dated during the relevant time period, as well as documents created, generated or dated outside this period, but which contain information concerning this period or were referred to by documents responsive to these discovery requests, be produced by You.

5. In producing documents and ESI, You are to furnish all documents or ESI in Your possession, custody or control, regardless of the physical location of the documents or whether such documents or materials are possessed directly by You, Your assistants, office

administrative personnel, direct reports, or employees; or by Your attorneys or their agents, employees, representatives, or investigators.

6. In producing documents and ESI, You are requested to produce the original of each document or item of ESI requested, together with all non-identical copies and drafts of such document. If the original of any document or item of ESI cannot be located, a copy shall be produced in lieu thereof, and shall be legible and, for a document, bound or stapled in the same manner as the original.

7. All documents or things that respond in whole or in part to any portion of these requests are to be produced in their entirety, including all attachments and enclosures. Documents attached to each other, and email messages and their attachments, should not be separated.

8. Documents or ESI not otherwise responsive to these Requests shall be produced if such documents or ESI mention, discuss, refer to, or explain the documents that are called for by these Requests, or if such documents are attached to documents called for by these Requests and constitute routing slips, transmittal memoranda, letters, cover sheets, comments, evaluations, or similar materials.

9. All documents and ESI shall be produced in the same order as they are or were kept or maintained by You in the ordinary course of Your business. If any documents or items of ESI have been removed from the files in which they were found for purposes of producing them in response to these requests, indicate for each document the file(s) from which the document(s) was (were) originally located.

10. All documents shall be produced in the file folder, envelope, or other container in which the documents are kept or maintained by You. If for any reason the container cannot be produced, produce copies of all labels or other identifying marks.

11. Documents and ESI shall be produced in such fashion as to identify the department, branch, or office in whose possession they were located and, where applicable, the natural person in whose possession they were found and the business address of each document custodian(s).

12. Documents attached to each other should not be separated, including, but not limited to, email attachments.

13. If a document or item of ESI once existed and has subsequently been lost, destroyed, or is otherwise missing, please provide sufficient information to identify the document and state the details concerning its loss.

14. All documents produced in paper form should be numbered sequentially, with unique number on each page, and with a prefix identifying the party producing the document.

15. Documents shall be produced in such fashion as to identify Your department, branch or office in whose possession they were located and, where applicable, the natural person in whose possession they were found and the business address of each document's custodian.

16. If you object to any part of these Document Requests, please (a) state each objection you assert in sufficient detail to permit the Court to determine the validity of the objection; and (b) produce all responsive documents to which your objection does not apply.

17. If you claim that any part of these Document Requests is vague or ambiguous, please identify the specific language you consider vague or ambiguous and state the interpretation of the language in question you used to frame your response.

18. If any documents are redacted on a basis other than privilege, provide the information and reason for redacting that document in sufficient detail to allow other parties to assess the validity of the claim for redaction.

19. If You redact any portion of the document, stamp the word "REDACTED" beside the redacted information on each page of the document which you have redacted.

20. Responsive data maintained electronically should be produced in its native electronic format. For each data field of transaction data produced, a complete description of the contents of that data field and the units of measurement used should be supplied. If the data field contains coded values, then provide a table or code sheet sufficient to understand or interpret those values. If transaction data is produced with different data fields arranged in separate database tables or files, then insure that the data fields exist in each table or file so that the tables or files can be linked together. Also provide a description of which data fields in each database table or file can be used to perform that link.

21. If You claim the attorney-client privilege or any other privilege or work-product protection for any document, provide a detailed privilege log that contains at least the following information for each document that You have withheld:

- (a) the date of the document or item of ESI;
- (b) the identity of each and every author of the document or item of ESI;
- (c) the identity of each and every person who prepared or participated in the preparation of the document or item of ESI;
- (d) the identity of each and every person who received the document or item of ESI;
- (e) the identity of each and every person from whom the document or item of ESI was received;
- (f) a general description of the subject matter;
- (g) the present location of the document or item of ESI and all copies thereof;

(h) the identity of each and every person having custody or control of the document or item of ESI and all copies thereof;

(i) the identity of the numbered request(s) to which the document or item of ESI is responsive; and

(j) sufficient information concerning the document or item of ESI and the circumstances thereof to explain the claim of privilege or protection and to permit the adjudication of the propriety of the claim.

22. If You assert privilege with respect to part of a responsive document or item of ESI, redact the privileged portion and indicate clearly on the document where the material was redacted. Produce the redacted document or item of ESI even if You believe that the non-redacted portion is not responsive. Identify the redacted portions on the privilege log in the same manner as withheld documents. Non-responsiveness of a portion of a document or item of ESI is not a sufficient basis for redaction.

23. Unless a different time period is specified, the Relevant Time Period is January 1, 1994 to the present. These Requests seek all responsive documents and materials applicable to or concerning the United States' market during the Relevant Time Period, regardless of whether the particular responsive document or item of ESI was created or generated during the Relevant Time Period.

24. These requests seek all responsive documents in Your possession, custody or control.

**DOCUMENTS TO BE PRODUCED**

1. Your written announcements to customers of changes in the prices you were going to charge for Urethane Chemicals. Note this request does *not* ask you to produce a copy of literally every price announcement that you sent to every one of your customers. Rather, it seeks a representative example of *each* price announcement that you sent to customers including those sent to Defendants (as defined here). If you collected these price announcements in *Urethane*, then producing those sets of announcements may suffice for most of the Relevant Period. For years outside the Relevant Period, this request seeks a representative sample of each such price announcement including those sent to Defendants (as defined here). Before responding to this request, we urge you to confer with us about the identity and content of the urethane price announcements that you produced to plaintiffs in *Urethane* so you and we can assess whether and the extent to which we require you to produce more than that which you produced in *Urethane*.

2. The transactional data that you produced to plaintiffs in *Urethane* reflecting the price that you charged for Urethane Chemicals, including the date of the transaction; product description; unit price (including unit of measure); quantity; total price; any rebates, credits or discounts; transportation costs, and any other charges. The transaction sales data that you produced in *Urethane* may satisfy this request for most of the Relevant Period. This request includes your transactional data regarding your sale of Urethane Chemicals to Defendants (as defined here). For years outside the Relevant Period, this request would control. Before responding to this request, we urge you to confer with us about the identity and content of the transactional sales data that you produced to plaintiffs in *Urethane* so you and we can assess whether and the extent to which we require you to produce more than that which you produced in *Urethane*.

3. All documents that you produced in *Urethane* that reflect in words or substance, or indicate, that a Defendant (as defined here) or any manufacturer of polyurethane foam: (i) invited you, encouraged you, asked you or wanted you to increase the price of Urethane Chemicals; (ii) did not object to your company increasing the price of Urethane Chemicals; or (iii) invited you, encouraged you, asked you, wanted you, or did not object to an increase in the price of Urethane Chemicals so any Defendant (or any manufacturer of polyurethane foam) could increase, or justify the increase in, the price of Polyurethane Foam.

4. Any documents reflecting, pertaining to or embodying any price increases for Polyurethane Foam made by any Defendant to any customer including, but not limited to, price increase letters issued by any Defendant, communications with or among Defendants concerning the amount and timing of any Polyurethane Foam price increase, and/or communications with any Defendant relating to Your transmission, communication or assistance in the transmission or communication of any proposed or actual Polyurethane Foam price increase.
